Mobile Check Deposit Feature

The mobile check deposit feature provides a convenient way for you and your clients to deposit checks. Mobile check deposit is the ability to initiate deposits via the NetX360[®] mobile app and NetXInvestor[®] mobile app by capturing a check image with a mobile device.

Some of the features and benefits of mobile check deposit include:

- Provides a convenient method through which advisors, home office users and investors can deposit checks
- Helps improve existing processes and minimize not in good order (NIGO) checks
- Reduces overnight courier expenses associated with the current model that requires checks to be shipped overnight for deposit
- Reduces cycle time for posting deposits to clients' brokerage accounts

Mobile check deposit is available for iPhone®, iPad®, Android Phones and Tablets users. NOTE: Mobile check deposit requires iOS 9.0 or higher, Android 6.0 or higher.

Please contact your Relationship Manager or Account Manager to see if your firm is eligible.
